

NOVAtime 2000

Time and Attendance Software

- 150, 300, and 500 Employee Capacity Software versions
- Networkable Software—client-server software with unlimited seat licensing / unlimited concurrent users
- Navigator Tool to assist with commonly performed tasks
- Fixed, Flexible, and Dynamic Shift Schedules
- Powerful and Dynamic Rules Configuration
- Centralized Feature Enhanced Timesheet
- Comprehensive Report Generator
- IN / OUT Board

The screenshot displays two main windows from the NOVAtime 2000 software. The top window is the 'Employee Management' interface for employee 'JONES, DANA' (ID: 9001). It includes fields for S.S.N., Last Name, First Name, Date, and Current Pay Period (01/02/2011 - 01/16/2011). A 'Report Generator' sidebar is visible on the right, listing various reports like Time & Attendance, Job Cost/Labor Tracking, and Payroll.

The bottom window is the 'Timesheet Management' interface, showing a table of employee hours. The table includes columns for Date, Pay Code, IN, InEx, Job, OUT, OutEx, Sh-Ex, Reg., OT-1, OT-2, and Reason. The data shows a 3-day period from 01/02/2011 to 01/11/2011, with entries for a holiday, regular workdays, and a sick day.

| Date | Pay Code | IN | InEx | Job | OUT | OutEx | Sh-Ex | Reg. | OT-1 | OT-2 | Reason |
|----------------|----------|-----------|------|--------|-----------|-------|-----------|-------|------|------|--------|
