

NOVAtime NT6500

Push-Technology Interactive Time Clock Terminal

- Innovative Push Technology - "pushes" employee punch data automatically from your time clock terminal to the server; real-time or periodically
- Choose between Bar Code Reader or Proximity Card Technology (configured at time of purchase)
- Standard with Ethernet (TCP/IP) Communications - all you need is an Internet connection (via HTTP/HTTPS access)
- Real time access for employees of their time sheet, schedule, and messaging
- Built-In UPS Battery - 2 hour operation or 3 days data backup
- Multi-level Transfers Capability at the Clock Terminal
- Bi-directional Data Synchronization
- One Year Warranty
